Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕐 10 minutes

Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

①
Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕐 5 minutes

PROBLEM
How might we [your
problem statement]?

Key rules of brainstorming
To run an smooth and productive session

Stay in topic.   Encourage wild ideas.

Defer judgment.   Listen to others.

Go for volume.   If possible, be visual.

---

②
Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕐 10 minutes

TIP
You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing!

AMARA DHANUSH

- Filtering based on university reputation and accreditation
- Sorting based on university rankings
- Filtering based on courses
- provide most recent and false proof information
- Provide transparent and accurate results
- Link to university website and contact information

BOLISETTY PRANEETH

- shortlist universities based on user interest
- compare between universities
- Calculation of cut off marks based on 12th State Board or CBSE
- No. of graduated students from the university
- eligibility cut off for the past ten years per university
- University professors experience

LOKESH

- Alumni records of universities
- No.of seats allocated for government quota
- Sorting and filtering based on placement success rate
- Sorting based on university nearby
- Eligibility based on community
- Graphical representation to better understand

SIVA

- Eligibility based on JEE Mains
- Admission criteria for disabled people
- Collecting feedback for future enhancement
- expert ratings
- User friendly interaction
- No. of seats allocated for management quota

---

③
Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.
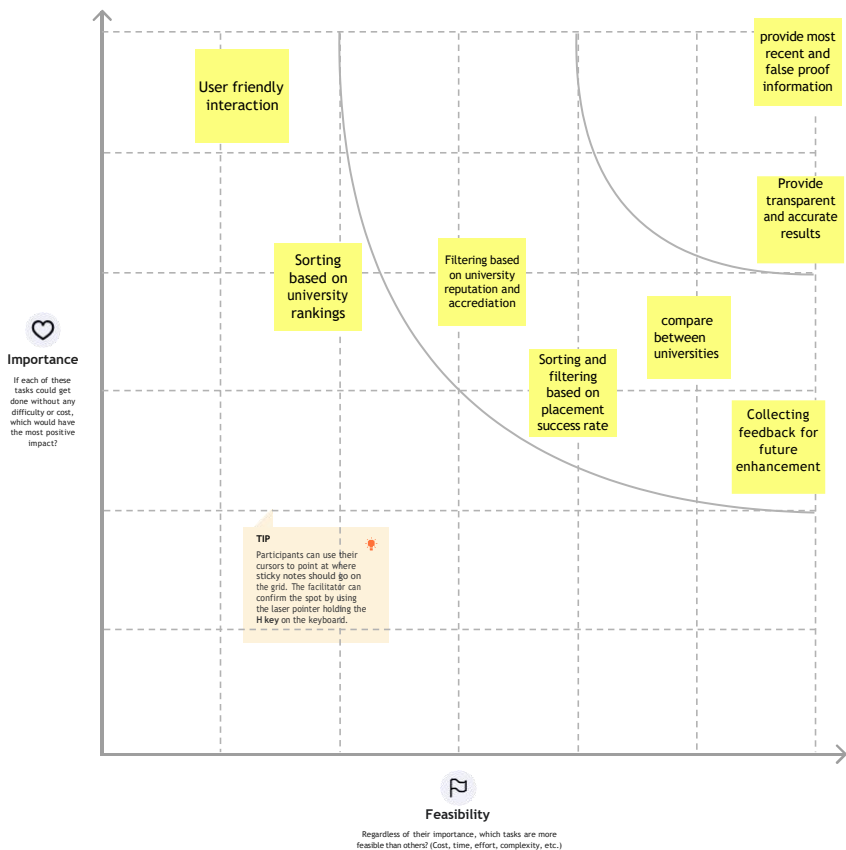

🕐 20 minutes

TIP
Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

- Filtering based on university reputation and accreditation
- Sorting based on university rankings
- Filtering based on courses
- Graphical representation to better understand
- **FEATURES**
- Link to university website and contact information
- shortlist universities based on user interest
- Sorting and filtering based on placement success rate

- compare between universities

④
Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕐 20 minutes

Importance
If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

Feasibility
Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)

TIP
Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the H key on the keyboard.

Grid items: User friendly interaction; provide most recent and false proof information; Sorting based on university rankings; Filtering based on university reputation and accreditation; Sorting and filtering based on placement success rate; compare between universities; Collecting feedback for future enhancement; Provide transparent and accurate results
